

Other Featured Attractions

(Hotel front desk has additional information)

CAVE OF THE WINDS

Discovered in 1881. Cave of the Winds has been a premier Colorado attraction for more than a century. With two guided cave tours, thrilling outdoor attractions and lots to do for all ages.

PIKES PEAK COG RAILWAY

Since 1891, world's highest cog railway ascends Pikes Peak, 14,115 feet. Train winds past waterfalls, through aspen and pine forest.

CHEYENNE MOUNTAIN ZOO

America's ONLY mountain zoo! All of your favorites are here—orangutans, hippos, tigers, elephants and bears (oh my!). Hand-feed our huge giraffe herd, and experience animals up-close, like never before.

MIRAMONT CASTLE MUSEUM

Miramont Castle was built in 1896 and is located in Manitou springs, just west of Colorado Springs. Miramont Caste was added to the National Register of Historic Places on May 3, 1977. Achieving national landmark status is a tribute to the building's historic heritage and architectural variety. As the work of restoring the Castle to its original beauty and grandeur progresses, research continues and new (or more accurately, old) information concerning the building and its people becomes available.

Fall Meeting - October 2014
Colorado Springs, CO

Cripple Creek Tour (5-6 hours)

Cripple Creek is one of Colorado's most magnificent treasures. Located on the west side of Pikes Peak, this historic mining town is surrounded by majestic mountains and breathtaking scenery.

The boom of the Colorado Gold Rush put Cripple Creek on the map in 1900, when gold worth more than \$18 million was mined in nearly 500 mines. Today 300,000 ounces a year are still being mined by The Cripple Creek and Victor Gold Mining Company, making it the fourth largest producing gold mine in the world.

In 1991, legalized gambling revitalized Cripple Creek's economy and today you can have fun and try your luck in one of the many casinos with exciting games like slots, blackjack, poker, roulette and craps. You will also find wonderful hotels, restaurants and shops that line the historic streets of Cripple Creek.

Cripple Creek has a state-of-the-art Heritage Center with informative tours and interactive displays, distinctive museums and attractions, a guided tour of a modern working mine and spellbinding tour of the Mollie Kathleen Mine from the Gold Rush that will take you 1,000 feet underground.
