ESTABLISHED 1947

The mission of the Insulated Conductors Committee is to continuously improve the fundamental technological understanding, practical application and safe use of conductors having applied insulation or coverings.

MISSION STATEMENT

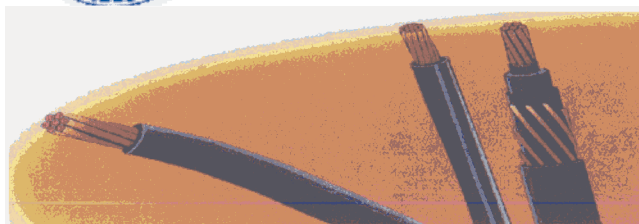

The mission of the Insulated Conductors Committee is to continuously improve the fundamental technological understanding, practical application and safe use of conductors having applied insulation or coverings

WHO ARE WE?

The Insulated Conductors Committee (ICC) is a professional organization within the Power Engineering Society (PES) of the Institute of Electrical and Electronics Engineers (IEEE)

WHO ATTENDS?

The strength of the ICC is the wide range of expertise and vast collective technical knowledge available from the active participation of volunteer members and guests that include end users, sellers, manufacturers, researchers, educators and other

WHAT WE DO

This mission is achieved by active participation in the following ICC activities:

- Development, review and publication of IEEE technical standards and guides
- Development and support of educational services
- Exchange of information with other members and guests at ICC functions

WHAT ARE THE BENEFITS OF MEMBERSHIP?

- Influence the development of industry standards
- Participate in technical discussions and presentations concerning the use and development of insulated cables and related accessories
- Participate in educational programs to enhance one's technical expertise
- Establish professional contacts with industry experts. Currently 22 IEEE fellows are actively involved with the ICC
