

Agenda F05D Meeting Damped AC Voltage Testing

ICC Spring 2009, ?? May, 2009

Chair: Ed Gulski

Co-chair: Wim Boone

Scope: Collect and evaluate experimental data and information required for the preparation of a Guide for Field Testing of Shielded Power Cables Using Damped AC Voltages.

Mission: Provide procedures and parameters for testing and diagnosis of shielded power cables using damped AC voltages.

Agenda:

1. Welcome by Ed Gulski
2. Agenda meeting Spring 2009
3. Minutes Meeting Fall 2008
4. Contributions about application of damped AC voltages methods description and experiences by manufacturers and users
5. Concept Guide for Field Testing of Shielded Power Cable Systems Using Damped AC Voltages
6. Discussion
7. Future activities, task allotments
8. Closure
